509,500 MINERS WILL LEAVE MINES

Will Stay Out Until Wage Scale Is Signed.

NO STRIKE ORDER WAS ISSUED

Men Left Mines With Their Tools and Will Not Return to the Mines Until the Scale Has Been Signed by the Operators.

Indianapolis, April 2.—The national executive board of the United Mine Workers of America held a session Saturday to take up in detail the management of the strike which was inaugurated in the anthracite and bituminous districts of the country at the close of work Saturday.

The number of men who left the mines Saturday is 509,500, and will not return until their employers have signed the wage scale demanded by the miners in the national convention.

In the central competitive districts, composed of Illinois, Indiana, Ohio and western Pennsylvania, Monday will be the eighth anniversary of the eight-hour day concession, and will be observed as usual as a holiday. It was anticipated by members of the national executive board Saturday that the scale would be signed in all probability by some of the operators of western Pennsylvania, either Saturday or Monday.

Before the board went into executive session at the national headquarters, members said a formal strike order would not be issued but at the close of work Saturday the men would leave the mines with their tools and would not return until the scale had been signed by the operators and they had been so notified by the district officials. Members of the board said that every step possible would be taken to prevent violence and a formal declaration to the miners forbidding rioting or destruction of property and urging them to properly conduct themselves probably would be issued.

Government May Sieze Mines.

Chicago, April 2.—The Tribune's Washington correspondent says:

It is a serious thing to say, yet I believe that I am justified in saying it, that if the strike of the bituminous and anthracite miners is permitted to continue to the point where the piled up stock of both kinds of coal are practically exhausted, so as to produce a paralysis of industrial operations, the government of the United States, either through the president or through congress, or both, will take action in the interest of the people, constitution or no constitution. That is the feeling here among men who are ordinarily conservative. They do not believe that either the president or congress has the right to dictate the terms on which men shall operate their mines or on which men shall work in those mines. They do believe, however, and the opinion was generally expressed yesterday by Republicans and Democrats and by high officials almost within the walls of the White House itself, that if any such crisis arises, the United States government will take possession of the mines, operate them for the benefit of the people, turning the money over to the rightful owners, leaving the operators and miners to agree among themselves if they can.

Did Not Report for Work.

Shamokin, Pa., April 2.—Hundreds of miners in this field did not report at the collieries Saturday. The men took all their tools from the workings Friday night, which indicates that the miners expect a long stay.

Twigg's Primary Results.

Jeffersonville, Ga., April 2.—In the primary election held for the nomination of county officers, member for the twenty-first district, and representative, Hon. H. F. Griffin, defeated his opponent, Henry Benn Wimberly. J. Walker Jones, for treasurer, defeated his opponent, Stephen Sikes. The other county officers had no opposition.

PLEAS ARE MADE.

Want Organ of Farmers' Union Entered as Second-Class Mail.

Washington, April 2.—Senator Clay, Congressman Bartlett and Congressman Gordon Lee called on Third Assistant Postmaster General Maddon and made a strong presentation of reasons why, in their opinion, the postoffice department should reverse its decision in the matter of excluding the Union News, organ of the Farmers' Union of Georgia, from the privileges of second-class matter postage rates.

In his formal reply to the resolution of inquiry which the house passed Postmaster General Cortelyou explained to the house that, in the judgment of the department, the Union News is not a newspaper of general circulation, as the regulations require, but is rather "designed primarily for advertising purposes, that it was conducted to advertise and promote the commercial interests of the 'Farmers' Union of Georgia and the individual members thereof."

This statement of the postmaster general was based on the report of the third assistant postmaster general, who has charge of this phase of the department's work.

Senator Clay and Messrs. Lee and Bartlett argued with Mr. Maddon that this decision was based on a clear misconception of the character of the journal in question, that its character had been passed upon by the department, which accorded it second-class rates, when it was published as a bi-weekly, and that it is just as much a newspaper as many of those now accorded the privileges it now seeks as a weekly.

Mr. Maddon promised to go into the matter again.

A River Mystery.

Montgomery, Ala., April 2.—Mrs. Johnson, who resides on the edge of the river at the end of Seventh street, heard a woman's voice cry out several times, "Don't do that!" The last cry was followed by a splash, after which no more sounds came from the direction of the river. She was satisfied that a crime had been committed and notified the police. The police investigated in the darkness, but could find nothing. The search was resumed after daylight, but nothing was discovered.

Will Try Greek "Citizens."

Savannah, Ga., April 2.—Judge Speer has ordered the clerk of the United States court to have the jury boxes in court so that he may draw a new jury. This means that the cases arising out of the alleged fraudulent naturalization of Greek citizens will be tried at this term of the court. The time when they will be tried is dependent on the time when the Greene-Gaynor case is concluded, as no other criminal business will be considered until then.

Missionary's Sight Restored.

Nashville, April 2.—Dr. Z. M. Simmons, for thirty years a Baptist missionary in Canton, China, who lost his eyesight by reason of cataracts and who came here a few weeks ago for treatment, has been operated on by a local oculist and the sight of one of his eyes has been completely restored by the removal of the cataract. An operation will soon be performed on the other eye.

Prince Arthur at Victoria.

Victoria, April 2.—A special train with Prince Arthur of Connought and members of the theater Mission to Victoria, has reached here. Prince Arthur and his party had good bags of fish to show for their two days' fishing in Cowichan lake. At Vancouver the main event was the inspection of the Duke of Connought's Rifles.

ROOT ABANDONS TARIFF QUESTION

Is Busying Himself With Other Matters.

QUESTIONS OF VITAL INTEREST

Will Try To Settle Points of Difference Between This Country and Canada Which Klondike Gold Strike Has Caused To Be Broken.

Washington, April 2.—Convinced that reciprocity treaties with Great Britain for the establishment of closer trade relations between the United States and Canada are out of the question at this time, Secretary Root has determined to abandon the tariff question for the present and is busying himself with other matters of vital interest to this country and Canada in the hope of settling points of difference which bade fair to be settled by the joint high commission when the Klondike gold strike caused the negotiations to be broken off suddenly and engendered a feeling of hostility which did not subside until a mixed tribunal fixed the boundary between the British and American mineral lands. A canvas of the senate persuaded Secretary Root that that reciprocity would not be considered at this session of congress. Although there was much clamor for tariff revision and modification early in the session, it failed to gain many supporters, and the recent announcement of Chairman Payne, of the house committee on ways and means, that no tariff legislation would be passed by this congress confired the reports that Republican leaders had agreed to accept the counsel of the "stand patters."

As the state department is under obligations to secure concessions for Germany in return for the favor shown the United States by permitting this country to remain among the favored nations in spite of the discriminatory tariffs recently put into force by the German government, Secretary Root feels that it would not be wise to undertake other tariff propositions at a time when the legislators seem so little inclined to tariff changes.

Moreover, the demand for reciprocity between the United States and Canada does not exist to the degree that it did when the joint high commission began the consideration of the subject in 1898. Canadians have cooled in their ardor and do not show any great desire to have American manufactured articles admitted at a low rate in exchange for Canadian raw materials.

Several subjects were under consideration when the Alaskan boundary dispute ended negotiations. Secretary Root feels that the time has come for taking up the broken strands where the joint high commission left them, and it is believed that he and Governor General Grey, of Canada, will make public some interesting plans for the settlement of the international differences in their speeches at the Pilgrims' dinner in New York Saturday night.

The representatives of Niagara Falls is perhaps the most interesting of the new international problems which has developed since 1898. Canada has shown a disposition to cooperate with this country in preventing the diversion of water from the falls and the report of the international waterways will doubtless form the basis for a treaty to protect the falls. President Roosevelt has supplemented the efforts of the state department in this matter and its early consideration may be expected.

The control of the St. Johns river between New Brunswick and Maine, the refusal of Canadians to permit American fishermen to buy bait in British territory, and other restrictions, regarded as unjust by fishermen from this country, seal fishing in the Behring sea and the north Pacific, provisions for the transit of merchandise in transportation to or from either country across intermediate territory of the other, whether by land or water, transit of merchandise from one country to be delivered at points in the same [illegible]

or citizens of the United States and of Canada; mining rights of the subjects or citizens of each country within the territory of the other; revision of the agreement in 1817 respecting naval vessels on the great lakes; provisions for the conveyance for trial or punishment of persons in the lawful custody of officers of one country through the territory of the other; reciprocity in wrecking and salvage rights are among the matters demanding adjustment.

SHORTEN LINE TO ATLANTA.

Southern Will More Closely Connect Gate City and Asheville.

Asheville, N. C., April 2.—The Southern railway is about to begin the construction of a short line between Rosman (on the Transylvania railway) and Seneca, S. C., on the main line of the Southern, from Washington Atlanta. An engineering corps has left this city for Rosman for the purpose of beginning an immediate survey. The construction of this line has been under consideration by the Southern railway for some time, and the order for the survey is the first step toward construction.

The new short line will place Asheville on a direct line with Atlanta, greatly reducing the distance between the two cities, and opening up a section of country of great natural beauty and productiveness.

The reduction in distance between Asheville and Atlanta via this new route will be between 40 and 50 miles, the exact figures being dependent upon the survey.

Verdict Proves Great Surprise.

Nashville, Ga., April 2.—The jury in the Bryant murder case rendered a verdict of involuntary manslaughter. The result was a great surprise to everybody. In passing sentence, Judge Mitchell told Bryant he would be glad to sentence him for more than three years, but he could not do so under the law. Bryant will not ask for a new trial. Mrs. J. E. Bryant, the mother of the prisoner, and wife of the dead man, was brought into court in an invalid's chair. She is 85 years old, and gave most damaging testimony against Bart Bryant. She said she pleaded with her son to stop beating his father until she fainted. The father also begged his son to desist.

Anniston Wants Jim Hall.

Atlanta, April 2.—Chief Jennings has received a telegram from Anniston, Ala., asking him to hold Jim Hall, the young boy recently arrested here for idling and lofing, as there is a serious charge facing him in the Alabama city. When told that he was charged with assault to kill Jim Hall acknowledged his gilt, stating that he shot a man in Anniston for getting him expelled from school, and that when he was sent to a reformatory school in Birmingham that he escaped and has been on the travel ever since.

Propose To Rebuild Dam.

Austin, Tex., April 2.—At a special meeting of the city council here a New York construction company proposed to rebuild the Austin dam, destroyed by floods seven years ago, and costing $4,000,000. The original cost of the dam was one and a half million dollars, and since then about a million has been added in equipment of steam plants. The matter was taken under advisement until next Monday night.

Laborers Will Be Benefited.

Chicago, April 2.—Six thousand building laborers will be benefited by an agreement which was entered into Friday between representatives of the Employing Plasterers' association and the Hod Carriers' and Building Laborers' union. By the terms of the new agreement the plasterers and laborers are to receive 49 cents an hour, an increase of 2½ cents an hour over the scale paid during the past five years. This scale is to go into effect July 6.

Pioneer Tennesseean Dead.

Knoxville, Tenn., April 2.—David Richards, aged 82 years, a pioneer captain of industry of Knoxville, died suddenly Saturday morning at his home in this city. He was born in Wales, in 1824, and came to America in 1844, locating at Danville, Pa. He came to Knoxville in 1867 and has [illegible]

THOUSANDS WITNESS HANGING OF YOUNG

Executed For Assaulting And Murdering Girl.

HANGING OCCURRED ON PRAIRIE

Spectators Came to Witness the Execution from a Radius of Fifty Miles, Hundreds Bringing Their Families in Wagons and Buggies.

Austin, Tex., April 2.—Fully 10,000 persons witnessed the public hanging of Tom Young, in Williamson county, 30 miles north of this city Friday.

The hanging occurred on the open prairie, and spectators came from a radius of 50 miles, hundreds being with their families in wagons.

Albert Johnson Hanged.

Waxahatchie, Tex., April 2.—Albert Johnson, a negro, was executed Friday afternoon for the murder of J. H. Taylor, a white man, committed near this city last July. The execution was public and was witnessed by several thousand people, many of whom were from adjoining counties.

Pastor Held for Jury.

Philadelphia, April 2.—J. Wesley Ankins, pastor of Faith Tabernacle, has been held in $2,000 bail for the action of the grand jury by Coroner Jermon as an accessory before the fact in the death of Grace Bates, a child who died of typhoid fever. When Grace Bates was stricken she was not given medical attention, it is alleged, her parents being followers of Ankins, who is a "faith curist." After the death of the child about a month ago, Ankins disappeared, but surrendered a few days ago.

Both Engineers Jumped.

Abilene, Tex., April 2.—The eastbound Texas and Pacific passenger train collided with a freight train near Eskota, caused, it is claimed, by the failure of the freight to make the siding at Eskota in time for the passenger to pass. The engineers and firemen of both engines reversed their engines, applied the air and jumped, all escaping injury. Both engines were disabled. None of the passengers received any serious injury, although a number received painful injuries.

Will Affiliate With Harriman.

Seattle, Wash., April 2.—The Post-Intelligencer says that J. D. Farrell, former assistant to the president of the great Northern railroad, and president of the Great Northern Steamship Company, will affiliate with Harriman in a position analogous to the one held by him with the Great Northern. Official confirmation has not yet been made, but is expected soon. This means that Farrell will be executive head of the Union Pacific in the northwest.

Vicksburg, Miss., April 2.—While duck shooting in Greasy lake, 28 miles north of Vicksburg, Alex Grant, white, and Alex Claiborne, negro, were drowned, the latter losing his life in an effort to save his white companion. Mr. Grant was a wealthy cotton planter and merchant of Hardee, Issaquena county.

The real estate boom continues unabated, and property in all parts of the city continues to change hands almost daily.

Mr. DeDand has purchased from B. F. Hampton a handsome residence on the corner of East Church and North Franklin streets, consideration $2,500. This is one of the handsomest homes in East Gainesville, and is almost new, having been constructed about two years ago. It is modern in architecture, and an ornament to that section of the city.

A PRETTY WEDDING.

Two Popular Young People of Waldo United in Matrimony.

On Saturday, March thirty-first, at the home of Mr. T. M. Cauthen, Waldo, Fla., Miss Nora Knoblock and Mr. Samuel Slack took the sacred vow to travel the rest of life's journey side by side.

Promptly at half-past seven, to the strains of Mendelssohn's Wedding March, the happy couple came slowly into the elaborately decorated parlor. They stood before an altar of rare and exquisite flowers and listened to the words of Rev. Branning which bestowed upon them the highest and best gift of God.

The ceremony was made more impressive by the low and soft music of "Oh! Promise Me," rendered by Miss Louise Cauthen.

After congratulations the bride and groom followed by their friends repaired to the dining-room, where the bridal supper was served in a most pleasing way by Misses Georgia Martin, Edith Baird and Louise Cauthen. All having done ample justice to the dainties, the bride placed a knife in the bride's cake and bade all the young persons present, desiring to know who would be next: who the rich one, and who the old maid or bachelor, to come forward and take their turn in cutting the cake. When each had the slice obtained it was found that John Eatenza held the ring, Miss Bessie Geiger the dime, but no one the thimble. It was left on the plate in plain view greatly to the delight of all present.

Returning to the parlor, an hour was spent in singing and making merry, after which the bride, one of our esteemed teachers, and the groom, our night operator, arose to go to their future home with Mrs. F. F. Geiger.

In the shower of rice which followed them it would have been hard to distinguish the beautiful white silk gown of the bride from the conventional black evening suit of the groom.

May their life have just enough clouds to cause a beautiful sunset, is the wish of everyone present.

A Guest.

Benj. P. Calhoun for State Attorney.

To the Democratic Voters of the Eighth Judicial Circuit of Florida:

I have already, by my card in the newspapers, announced my candidacy to succeed myself as State Attorney in this circuit. The duties of the office of State Attorney necessitate the closest attention to the various terms of court which are now upon me, hence it will be impossible for me to make, as I would like, a personal canvass.

It has been my earnest desire to discharge the functions of the high office which I now hold fearlessly, faithfully and capably to the best of my ability; and right here may I state that I have always sought to be in touch with, and have been a friend of the people in public and private life, and have been consistently an advocate and supporter of a railroad commission. For eight years last past, I have had no connection in any manner whatsoever with railroad corporations. Nor have I received any favors or retainers from them.

I am in favor of the best system of public education, good roads, low taxation and all things that tend to the betterment and welfare of the people. Therefore, I respectfully submit my candidacy to the voters and earnestly request their consideration at the coming primary, basing my aspiration for endorsement upon whatever of record that I may have made.

I was born at St. Augustine, Florida, on August 7th, 1855, and was educated at the University of Nashville, Nashville, Tenn. I have been in the practice of law for nearly thirty years. I was a delegate to the Pensacola Convention, at which Gov. Perry was nominated, and a member of the State Democratic Executive Committee during that campaign; chairman of the Putnam county delegation at the State Convention in St. Augustine in 1888; delegate to the Tampa Convention when Gov. Mitchell was nominated; State Senator from Putnam for the sessions of '91 and '93; Solicitor of the Criminal Court of Record for Putnam county for four years, from '93 to '97; appointed State Attorney of the 8th Circuit in May, 1903, and have always been a Democrat by choice and tradition, since my first vote was cast in 1876."

Trusting that my efforts as State Attorney have met with your approbation and that I may have the honor of serving you for another term, I am,

Yours very respectfully,
BEN. P. CALHOUN.

THREE FACTS

For Sick Women To Consider

FIRST.—That almost every operation in our hospitals performed upon women becomes necessary through neglect of such symptoms as backache, irregular and painful periods, displacements of the female organs, pain in the side, burning sensation in the stomach, bearing-down pains, nervousness, dizziness and sleeplessness.

SECOND.—The medicine that holds the record for the largest number of absolute cures of female ills is Lydia E. Pinkham's Vegetable Compound. It regulates, strengthens and cures diseases of the female organism as nothing else can.

For thirty years it has been helping women to be strong, curing backache, nervousness, kidney troubles, inflammation of the female organs, weakness and displacements, regulating the periods perfectly and overcoming their pains. It has also proved itself invaluable in preparing women for childbirth and the change of life.

THIRD.—The great volume of unsolicited and grateful testimonials on file at the Pinkham Laboratory at Lynn, Mass., many of which are from time to time published by permission, give absolute evidence of the value of Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's advice.

Mrs. Pinkham's Standing Invitation to Women.—Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. All letters are received, opened, read and answered by women only. From symptoms given, your trouble may be located and the quickest and surest way of recovery advised. Mrs. Pinkham is daughter-in-law of Lydia E. Pinkham and for twenty-five years under her direction and since her decease she has been advising sick women free of charge. Out of the vast volume of experience in treating female ills Mrs. Pinkham probably has the very knowledge that will help your case. Surely, any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.

Caught Cold While Hunting a Burglar.

Mr. Wm. Thos. Lanergan, provincial constable at Chapleau, Ontario, says: "I cought a severe cold while hunting a burglar in the forest swamp last fall. Cured Hemorrhages of the Lungs.

"Several years since my lungs were so badly affected that I had many hemorrhages," writes A. M. Ake of Wood, Ind. "I took treatment with several physicians without any benefit. I then started to take Foley's Honey and Tar, and my lungs are now as sound as a bullet. I recommend it in advanced stages of lung trouble." Foley's Honey and Tar stops the cough and heals the lungs, and prevents serious results from a cold. Refuse substitutes. J. W. McCollum & Co.

RHEUMATISM

TROUBLESOME PAINS AND ACHES

While Rheumatism is usually worse in Winter because of the cold and dampness of a changing atmosphere, it is by no means a Winter disease entirely. Persons in whose blood the uric acid, which produces the disease, has collected, feel its troublesome pains and aches all the year round. The cause of Rheumatism is a sour, acid condition of the blood, brought about by the accumulation in the system of refuse matter, which the natural avenues of bodily waste have failed to carry off. This refuse matter coming in contact with the different acids of the body, forms uric acid which is absorbed by the blood and distributed to all parts of the body, and Rheumatism gets possession of the system. Rheumatic persons are almost constant sufferers; the nagging pains in joints and muscles, are ever present under the most favorable climatic conditions, while exposure to dampness or an attack of indigestion will often bring on the severer symptoms even in warm, pleasant weather. Liniments, plasters, lotions, etc., relieve the pain and give the sufferer temporary comfort, but are in no sense curative; because Rheumatism is not a disease that can be rubbed away or drawn out with a plaster. S. S. S. is the best treatment for Rheumatism: it goes down into the blood and attacks the disease at its head, and by neutralizing the acid and driving it out, and building up the thin, sour blood, cures Rheumatism permanently. Being made entirely of roots, herbs and barks, S. S. S. will not injure the system in the least. Book on Rheumatism and any medical advice without charge.

When your nerves are weak, when you are easily tired, when you feel all run down, then is the time you need a good strong tonic—Ayer's Sarsaparilla. Your doctor will tell you why it has such power over weak nerves, why it makes the blood rich, and why it gives courage and strength. Ask him if it is not just the medicine you need.

NEWS OF CITY AND COUNTY CONDENSED

A. F. Scott of Hague, J. N. Kirkland of LaCrosse, R. G. Bass of Evinston and J. R. Feaster of Rochelle were visitors to this city yesterday. Mr. Kirtland called at The Sun office and renewed his subscription.

Miss Ida Philpot of Levy county, who has been teaching the Gracy school, passed through the city Saturday en route to her home at Levyville. The school, on Friday, closed a most successful term, and the teacher proved herself so efficient that she was unanimously requested to return next season.

F. R. Seawell, for the past few months manager of the dress goods department of The G. W. Hyde Company, has resigned his position with that concern, and expects to make his departure in a day or two for Clearwater, where he has accepted a position as manager and buyer for the Cash Dry Goods Company, one of the largest dry goods stores in South Florida. Mr. Seawell is regarded as one of the most competent dry goods salesmen in the State, having had the advantage of long experience. While his friends here regret very much to see him leave, they will nevertheless extend congratulations.

The Rebekah Lodge will hold a social at Masonic Hall on Friday night, and a big time is anticipated. The occasion is not alone for Odd Fellows and Rebekahs, but for all friends who desire a pleasant time are invited. There is no admission, but lunch baskets, well filled, will be sold to the highest bidder. Then, if you want a partner to share the contents of your lunch basket, there will be a choice assortment of the most fascinating female lunch annihilators ever on exhibition in Florida to be knocked down to the highest bidder, whose powers for masticating dainty delicacies are unsurpassed.

The colored celebrities of the city have organized a musical concert company, which they have pleased to term "The Southern Ragtime Coon Shouters." This aggregation is supported by such singers, dancers and comedians as "Gloomy Gus," Walker, Demry, Floyd, DeBose, McCray, Nelson and others. An entertainment will be given at Johnson's Hall Thursday, April 5, for the benefit of the Central City Baseball Club, which is one of the best colored clubs in the State. The club is desirous of raising money for the rent of the baseball park for the season. The admission will be 25 and 35 cents, and special seats will be reserved for white people.

Benson's New Wagon.

N. E. Benson, the bill poster, is out with a brand new wagon, which is sufficiently attractive to command the attention of our people. The vehicle is the production of the factory of Benson & Son, and the workmanship is a credit to that firm. It is handsomely painted and lettered, and Mr. Benson has a right to feel proud of his new possession.

HON. DAVID O. ROBINSON

Benefited by Vinol After All Other Medicines Had Failed.

The Hon. David O. Robinson, county treasurer of Frankfort, Ky., writes: "I was very much run-down from overwork, and suffered from indigestion and a severe nervous trouble. The medicines prescribed all failed to help me, and I could not take cod liver oil or emulsions as the greasy mixtures upset my stomach. One of our county officials told me about your delicious cod liver preparation, Vinol, and what it had done for him. I decided to try it, and in a remarkably short time I was a well man. Vinol built me up, cured my stomach and nervous trouble and I have not been so well for years."

Our local druggist, W. M. Johnson, says: "Vinol cures conditions like this because it positively contains in a highly concentrated form all of the vitality-making and body-building properties of cod liver oil actually taken from fresh cods' livers, and without a drop of oil to upset the stomach and retard its work.

"We ask every run-down, nervous, debilitated, aged or weak person in Gainesville, and every person suffering from stubborn colds, hanging-on coughs, bronchitis or incipient consumption, to try Vinol on our guarantee to return your money if it fails to give satisfaction." W. M. Johnson, Druggist.

SINGER'S NEW MANAGER.

L. W. Jackson Succeeds W. H. Lipscombe as Manager in Gainesville.

The Singer Sewing Machine Company, the headquarters of which are in this city for Central Florida, has a new manager in the person of L. W. Jackson, who has been transferred to this city from Ocala, where he has been representing the company as a salesman for the past two years. Mr. Jackson succeeds W. H. Lipscombe, whom it is understood has accepted a lucrative position in Jacksonville.

Mr. Jackson and family arrived in the city from Ocala yesterday, the former assuming charge of the affairs of the Singer office Monday. This estimable family resided here for many years prior to their departure for Ocala, and their numerous friends are delighted to greet them as residents again.

Grip Quickly Knocked Out.

"Some weeks ago during the severe winter weather both my wife and myself contracted severe colds which speedily developed into the worst kind of la grippe with all its miserable symptoms," says Mr. J. S. Egleston of Maple Landing, Iowa. "Knees and joints aching, muscles sore, head stopped up, eyes and nose running, with alternate spells of chills and fever. We began using Chamberlain's Cough Remedy, aiding the same with a double dose of Chamberlain's Stomach and Liver Tablets, and by its liberal use soon completely knocked out the grip." Sold by all druggists.

DEATH OF J. H. PRATER.

Expired at His Home in Micanopy After Very Brief Illness.

After an illness covering a period of less than three days, J. H. Prater passed away at his home in Micanopy at an early hour Sunday morning of congestion of the brain and congestion of the bowels. Notwithstanding that everything possible was done to revive him, several physicians having been called in consultation, it was announced Saturday that there was no hope for the patient, death being inevitable. Around the bedside at the time of his death was his devoted wife and many friends.

This death was a particularly sad one on account of its suddenness. Mr. Prater was in Gainesville on Wednesday of the past week, apparently as well as usual. He returned to his home, and on Friday was afflicted with the diseases from which he died.

Deceased was about fifty years of age. He was a native of Georgia, but had been a resident of Micanopy for about twenty years, during which time he has made an excellent citizen and active business man. He was at the time of his death, and had been for several terms previous, mayor of Micanopy, and no man was more popular or more universally regarded. He was an active member of the Methodist church of Micanopy, and will be greatly missed by the congregation. He is survived by a loving wife, to whom the sympathy of friends is extended.

The funeral was held from the Methodist church Sunday afternoon under the auspices of Micanopy Lodge, Knights of Pythias, of which deceased was a member. Owing to the absence of Rev. E. A. Gray of the Methodist church, the services were conducted by Rev. Mr. Thompson, the Baptist divine.

The funeral was largely attended and many friends followed the remains to the last resting-place.

DR. GOLDSTEIN,

..EYE SPECIALIST..

OF LOUISVILLE, KENTUCKY.

Many persons do not see as well as they should. Some see well but their eyes become tired. Others suffer with headache constantly or periodically, which medicine does not relieve, because the headache comes from eye strain, and the only remedy is a pair of glasses properly fitted by one who understands the eyes, their defects, and their relation to human ills.

WE EXAMINE YOUR EYES FREE OF CHARGE.

And when we examine them, we mean a thorough examination—as complete as can be had anywhere at any price. We explain to you what your trouble is. You get the benefit of our experience and knowledge free.

EYE STRAIN.

More headache and nervousness is caused by eye strain than all other causes combined. Good vision is absolutely no proof that the eyes are good. Many readers of this article can see perfectly, but they suffer from nervous ills of one kind or another and never think that the eyes are the cause of it all. They may have taken medicine without getting relief or may have suffered thinking there was no remedy.

PROPER GLASSES AND PROPER FRAMES.

It is great importance that glasses should be properly ground and centered and of the best quality. The frames must be fitted that they will hold the lenses in place so there will be no damage to the eye from lack of harmony between the center of the lenses and those of the eyes. Many otherwise good pieces of work have been a failure from this cause alone.

Do not neglect your children's eyes. Office at The Oaks for a few days.

AT PRESBYTERIAN CHURCH.

Nine Accessions to Church and Ten Children Baptized Sunday.

Sunday was a glorious day with Rev. Thomas P. Hay and the congregation of the First Presbyterian Church, and the sun went down on a happy pastor and membership.

In the morning there were nine accessions to the church, some by baptism, others by letter. The morning services were unusually well attended, and the service more impressive on this account.

The pastor having announced that the unchristened children of parents of the congregation would be baptized at the Sunday school service in the afternoon, ten children, ranging in age from a few months to six and seven years, were presented, and, with the impressive ceremonies attending the occasion, the rites were conferred.

HEALTH IS YOUTH.

Disease and Sickness Bring Old Age.

Herbine, taken every morning before breakfast, will keep you in robust health; fit you to ward off disease. It cures constipation, biliousness, dyspepsia, fever, chills, liver and kidney complaints. It purifies the blood and clears the complexion. Mrs. D. W. Smith, Whitney, Texas, writes April 3, 1902: "I have used Herbine, and find it the best medicine for constipation and liver troubles. It does all you claim for it. I can highly recommend it." 50c. Sold by W. M. Johnson.

Cotton is Up.

D. L. Williams, who conducts a farm in the Beville section, a few miles west of Gainesville, was in the city Saturday. Mr. Williams states that on his farm is some cotton, planted early, which is already up. This being the case, he will probably gather the first staple the coming season.

KEEP YOUR HEAD UNCOVERED.

The Constant Wearing of a Hat Propagates Dandruff Germs.

There are many men who wear their hats practically all the time when awake, and are blessed with a heavy shock of hair; yet if the scalps of these same men once became infested with dandruff germs, the parasites would multiply all the quicker for lack of air. Baldness would ensue as the final result. Newbro's Herpicide kills these germs and stimulates unhealthy hair to abundant growth. Herpicide is a pleasant hair dressing as well as a dandruff cure and contains not an atom of injurious substance. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

A graving dock is talked of for Pensacola that will take in the largest battleships of the navy.

Before the miners had quit work on Saturday night, New York dealers had raised the price of coal.

Mrs. Storer, wife of the ambassador, just will have her say in regard to her husband beeing recalled, so there.

If we only had more foreigners in the Senate the President might then have some influence over that body.

Pensacola will take no chances on the pesky mosquitoes, and nothing will be left undone that will help to drive them from that city.

The quarterly anniversary celebrated at Tuskegee Institute will be observed this week. The more birthdays the more money, Booker thinks.

John Sharpe Williams declared that protection is the mother of graft, corruption and socialism. It is the mainstay of the Republican party as well.

The coal miners of France have gone on a strike. They waited until enough men were got out of the recent disaster alive to make a repectable appearance.

The labor unions of Tampa are talking of a sympathetic strike to help out the painters. Suppose the other union men are getting tired of seeing the painters sit around and draw pay from the funds.

It is barely possible that the strike of the coal miners will not be as bad as some of the barons would like to have it. With plenty of coal on hand and a strike, the price could be advanced and millions made by the operators and dealers.

The fact that the President and Congress stand ready to go into the mining business, should it be necessary, has a tendency to bring the coal barons to a realising sence of the fact that they are not exactly what they would desire to impress upon the people—owners of the earth by divine right.

The cold weather of Saturday and Sunday was a slight reminder of what can be expected in Michigan and Wisconsin 30 days from this date, only there is liable to be snow there then. The frost of Sunday morning was plenty heavy enough, and it may have touched up some of our cantaloupes. But we are done with March for some time, and we can now hope for better weather.

The Lyman D. Morse Advertising Agency, one of the oldest in existence, has been changed to the Morse International Agency, with offices at 38 Park Row, New York City. The business of this firm is so rapidly increasing that larger quarters are demanded, and after May 1st this establishment will be moved to the Revillon building, 19 West 34th street, New York. The firm is recognized among advertisers as one of the most reliable in the country.

THAT COTTON MILL.

The sale of the cotton gin to parties who have capital and a desire to add to the business has caused some of the men who are interested in the advancement of Gainesville and her industrial progress to inquire in regard to the establishment of a cotton factory here.

There is no good reason why a cotton mill in this city could not be made to pay, and there is no good reason why they should not have several mills in Florida. We have the raw material, and it seems as though we could make cotton cloth or yarn here and ship it as cheap as yarns are shipped from other places to half a dozen States.

But there is one thing certain—it takes money to build a cotton mill and about $50,000 or $75,000 at that, so if the men who have capital, and desire to invest it, want a cotton mill, they are the ones to do the talking that counts.

At the present time the capital of the State is invested in naval stores and phosphate enterprises, and unless some other business is opened up in this section before many years the prosperity of the country will be at a standstill.

We will no doubt soon be on another railroad line that will be of much importance to every branch of industry in the city, and a cotton mill would do much to help us along by raising the price and giving us a home market for the crop.

COL. WRENN IN NEW YORK.

Friends of Col. B. W. Wrenn in Florida, which includes every section, will note with interest that he is now residing in New York, where he is the president of the Manhattan Auto-Car Company, a company organized for the purpose of conveying visitors to the city and others over New York in the finest touring cars, built for the purpose.

Mr. Wrenn is well known and has many friends through the State, as he was for many years connected with the old Plant System in the capacity of general passenger agent, with headquarters in Savannah.

Col. Wrenn, in a letter to the publisher of The Sun, requests his Florida friends to call and see him when in New York. He may be found at the Saranac Hotel, Broadway and 42d street, and will be always glad to see them.

From the advertising folder sent us, we learn that the great sight-seeing auto cars in the service of his company are the finest in the world, and make regular trips from the Saranac Hotel, taking in all the interesting sights of that great city.

It is quite certain that some of the stories going the rounds of the State regarding the Everglades and the drainage tax are not true. While we believe there is land enough at the present time to make good homes for all who may come here for years, we see no need of exaggerating in regard to the matter. The people elected Napoleon B. Broward as Governor, with the understanding that he would drain the Everglades. It seems that at the time he was elected Governor the majority of the people favored the scheme. Now it looks as though the majority was opposed to it. The Governor is fulfilling his pledge. The moral is: "Be careful how you vote."

The accident to the Florida Special train, near Macon Saturday, was a lucky one, as the train was thrown from the track and smashed to piebes, yet there was no one killed outright. Many were bruised, but the wonder is that any escaped.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

An Eastern man now in a New England penitentiary asks to be pardoned because confinement is injurious to his health. It is just as well to be frank about these things. TERRIBLE ECZEMA ON LITTLE BOY

Mouth and Eyes Covered With Crusts—Face Itched Most Fearfully—Hands Pinned Down to Prevent Scratching

MIRACULOUS CURE BY CUTICURA REMEDIES

"When my little boy was six months old, he had eczema. The sores extended so quickly over the whole body that we at once called in the doctor. We then went to another doctor, but he could not help him, and in our despair we went to a third one. Matters became so bad that he had regular holes in his cheeks, large enough to put a finger into. The food had to be given with a spoon, for his mouth was covered with crusts as thick as a finger, and whenever he opened the mouth they began to bleed and suppurate, as did also his eyes. Hands, arms, chest, and back, in short the whole body, was covered over and over. We had no rest by day or night. Whenever he was laid in his bed, we had to pin his hands down; otherwise he would scratch his face, and make an open sore. I think his face must have itched most fearfully.

ALFONSO HOHRATH.

"We finally thought nothing could help, and I had made up my mind to send my wife with the child to Europe, hoping that the sea air might cure him, otherwise he was to be put under good medical care there. But, Lord be blessed, matters came differently, and we soon saw a miracle. A friend of ours spoke about Cuticura. We made a trial with Cuticura Soap, Ointment, and Resolvent, and within ten days or two weeks we noticed a decided improvement. Just as quickly as the sickness had appeared it also began to disappear, and within ten weeks the child was absolutely well, and his skin was smooth and white as never before." F. Hohrath, President of the C. L. Hohrath Company, Manufacturers of Silk Ribbons, 9 to 20 Rink Alley, June 5, 1905. South Bethlehem, Pa.
